EDUCATION

IKGPTU Main Campus, Kapurthala

Aug 2026 – Present

Bachelor of Computer Applications (BCA) — 1st Year

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Frontend: React, Next.js, Tailwind CSS, Framer Motion, Vite

Database: MongoDB, Supabase

Currently Learning: Node.js, Express.js (backend development)

Tools: Git, GitHub, Vercel, Netlify, VS Code, Cursor, Figma, Postman, Claude Code, OpenAI Codex, Antigravity

PROJECTS

repomap.ai | *React, Next.js, TypeScript, Tailwind CSS*

- Built the frontend independently for an AI-powered GitHub repository analyzer that generates architecture visualizations, code insights, and onboarding guides for new contributors.
- Built and shipped live at the Namaste OpenAI Hackathon; received an official certificate for the project.
- Deployed and live at repomap-ai-one.vercel.app.

Draftforge | *React, JavaScript, Tailwind CSS — In Progress*

- Personal project in active development, building independently outside of coursework.
- Deployed preview live at draftforge-rho.vercel.app.

Personal Portfolio | *Next.js, TypeScript, Tailwind CSS, Framer Motion*

- Designed and built a full personal portfolio and project hub, including a live commit graph, blog, and project showcase.
- Deployed and live at sumit0xff.vercel.app.

ACHIEVEMENTS

- Certified project builder at the Namaste OpenAI Hackathon for repomap.ai — designed, built, and deployed a live AI tool under hackathon time constraints.
